# Press Release

## **St. Gregory Centers, Inc. awarded highest national accreditation for Residential Drug Addiction Recovery Program.**

The St. Gregory Retreat Center offers one of nations few accredited alternatives to 12-step substance abuse treatment.

**Des Moines, Iowa - March 19:** The Commission on Accreditation of Rehabilitation Facilities (CARF) International announced that St. Gregory Centers Inc., has been accredited for a period of three years for its Adult Residential Treatment services for Alcohol and Other Drugs /Addictions. This is the first accreditation that the international accrediting body has awarded to the St. Gregory Retreat Center.

This accreditation decision represents the highest level of accreditation that can be awarded to an organization and shows the drug addiction recovery program's substantial conformance to the CARF standards. An organization receiving a Three-Year Accreditation has put itself through a rigorous peer review process and has demonstrated to a team of surveyors during an on-site visit that its programs and services are measurable, accountable, and of the highest quality.

Clients from across the nation have been drawn to attend the St. Gregory Retreat Center for its unique, proprietary approach to substance abuse treatment. The St. Gregory Retreat Center exclusively delivers the Life Process Program<sup>®</sup> which was developed by pioneering addictions psychologist, Dr. Stanton Peele, in 1991 and has evolved into one of America's most advanced alcohol and drug addiction recovery programs available today.
